

NEW PRODUCT

EGGER Mainau Birch (Panels)

Plywood alternative

Cost-effective & natural looking alternative to Birch plywood

EGGER Mainau Birch H1733 ST9

Design advantages

- ✓ Matching laminate for a seamless finish
- ✓ Available in extra-large sheets for better design & optimisation
- ✓ Anti-bacterial properties (ISO 22196) as standard
- ✓ Stable panels that won't cup / bow – perfectly suited for joinery doors
- ✓ Consistency in colour between sheets
- ✓ High quality 'defect free' face & back

Commercial benefits

- ✓ Cost effective alternative to veneers & plywood
- ✓ Pre-finished MFC – no coating required

Fabrication advantages

- 💰 Large sheets enable greater optimisation less wastage – saving time & money
- ✂️ Easy to work with – simply cut, edge & install!

Sheet Sizes

- Eurodekor® Panels – 2800 x 2070 x mm
- 12 mm – standard E0 particleboard (walls & ceilings)
 - 18mm – suitable for joinery
 - 25mm – for thicker installations (desks / shelves / workstations)
- Flammex – 2800 x 2070 x 18mm
- Wall lining & joinery (Group 1 Fire-rated panels)
- Eurolight – 2800 x 2070 x 50mm (lightweight panels)
- Laminate – 3650 x 1310 x 0.8mm (postformable)

NEW PRODUCT

EGGER PerfectSense® (Panels)

Now available with Feelwood

Innovative combination of anti-trace matt finish & woodgrain texture

EGGER Black U999 TM28

EGGER Black U999 TM28

Eco-Facts about
EGGER Laminate

EGGER Laminate For Trades

Save time & margin with an integrated suite of decorative finishes

Commercial benefits

- ✓ Perfect colour & surface texture match to other EGGER decorative ranges for a professional & cohesive finish
- ✓ Cost-effective alternative to other decorative surface materials – no coating needed to replicate timber/veneer texture

Fabrication advantages

- 📄 Saves time & money – 13 décors also available as **prefinished worktops** to match laminates perfectly
- ⊖ Solid colours, materials & standard woodgrains all **postformable** down to a 6mm radius for a clean and crisp appearance

Range & supply options

Looking for more?

- Choose amongst 280+ colours & textures in the extended international range.
- High-speed delivery options available!

280+ colours & textures

High-speed delivery

Sheet size advantages

3650 x 1310mm – Regular sheet size:

- Solids, Patterns, Woodgrains & PerfectSense
 - Consistent sheet sizes
 - Easy to process & work with

2790 x 2060mm – XL sheet size:

- Feelwood décors
 - For larger applications
 - Optimisation purposes to reduce the number of joins

EGGER Compact Laminate For Designers

Compact Laminate with outstanding design & durability characteristics

Select from a range of 9 sustainable décors & design with the aesthetics of natural timber, concrete, stone or striking solid colours!

**EGGER Lime Green
U630 ST9 (EU range)**

Lime Green has a strong presence and is a basic colour thanks to its purity. The combination of a pure white supports its luminosity.

Design advantages

- ✓ Suitable for horizontal & vertical applications
- ✓ Large EGGER sheet sizes for better optimisation – less joins for partitions especially for disabled & unisex toilets
- ✓ Available in 9 décors that perfectly match EGGER panels & edging for a consistent look
- ✓ Perfect for interior design applications with high-stress exposure & high demands for hygiene/cleanliness
- ✓ White core available for clean & dynamic appearance

Product applications

- Toilet partitioning
- Wall claddings
- Cabin / wall partition construction
- Tabletops / worktops
- Heavy-duty interior design (commercial projects)
- Furniture
- Lockers

Sustainability & lifestyle benefits

- 🌳 60% of materials made from renewable resources
- 🚫 Low VOC emissions
- 🛡️ Chemical resistance (SEFA 3) as a standard & Food Safe certified
- 🛡️ Highly durable finish & moisture-resistant
- 🌟 Hygienic and easy to maintain
- 🚫 Anti-bacterial properties (ISO 22196) as standard on all surface textures

Eco-Facts about EGGER
Compact Laminate

EGGER Compact Laminate For Trades

Perfectly matched across the **EGGER** product range for a cohesive fit 'n finish

Product structure

Phenol resin impregnated soda kraft paper (or melamine resin impregnated core layers with coloured core compact laminate)

Melamine resin impregnated decorative paper

Overlay (for wood and material reproductions)

Commercial benefits

- ✓ Identical finishes across selected EGGER products for consistent aesthetics
- ✓ Indestructible due to multi-layered composition perfect for heavy-duty & wet areas

Fabrication advantages

- 🏠 Saves time & money – large sheets enable greater optimisation & less wastage
- 🔪 No need to apply edging & no other preparation required – just cut, polish edges (if required) & install

Sheet size advantages

2790 x 2060 x 13mm

The **standard unisex toilet** requires a 2700mm ceiling height.

- The **2790mm** sheet height enables floor to ceiling coverage with no joineries
- The **2060mm** sheet width enables full depth up to 1800mm

Available in:

- 8 black core / 1 white core décors
- Other décors available (lead times & MOQ's apply)

EGGER Flammex For Designers

Design a stylish fire resistant space with beautiful Flammex fire rated panels

Select from a range of sustainable décors & design with the aesthetics of natural timber, concrete, stone or striking solid colours!

**EGGER Wenge
H1555 ST15 (EU range)**

Wenge is an elegant dark-brown décor accentuating the look of natural wood.

Design advantages

- ✓ Suitable for wall linings, ceiling panels or joinery where Group 1 fire rating is required
- ✓ Pre-finished Melamine Faced Chipboards replicating the look & feel of wood reproductions
- ✓ Matches other finishes perfectly in other applications where Group rating is not required
- ✓ 8 décors available for immediate delivery; 200+ décors available for long-term projects (lead times and MOQ's apply)

Product applications

- Wall claddings
- Ceiling linings
- Grid system ceiling tiles
- Furniture in areas where Group 1 is required (i.e., exit areas in public buildings)
- Commercial projects that require higher building code standards for fire protection (Group 1 fire rating)

Sustainability & lifestyle benefits

- 🌱 Negative carbon footprint (-13.3kg CO₂/m²)
- 🌳 87% of material made from renewable resources
- ♻️ 65% recycled content
 - 23% post-consumer
 - 42% post-industrial
- 🏆 Testing as per NCC requirements of 2019 (in accordance with AS 5637.1-2015)
- 🧼 Anti-bacterial properties (ISO 22196) are standard inclusions
- 🔥 Group 1 Fire Rating panels without design limits – also covers Group 2 requirements (AS 5637.1)
