

The MEGANITE[®] Decorative Collection

MEGANITE[®]
Acrylic Solid Surface

MEGANITE[®] is a safe alternative to engineered stone.

Design with the alluring look of stone, marble, or concrete with MEGANITE Acrylic Solid Surface. Silica-free*, food-safe & 100% non-porous, the Solid Surface is also impervious to bacteria, mould & moisture, making it the perfect choice for stunning hygienic interior spaces. We recommend MEGANITE for timeless design, with health & safety at the forefront.

*Exposure to silica dust contained in natural & re-constituted stone can cause serious health issues. For more information see information provided by the Cancer Council. <https://www.cancer.org.au/cancer-information/causes-and-prevention/workplace-cancer/silica-dust> (accessed 25 September 2021).

Specifying Responsibly with ForestOne

ForestOne & MEGANITE

What is solid surface?

Introduced in the 1960s, solid surface is a non-porous material made from an acrylic-polyester blend that resembles the look of stone. Solid Surface production involves chemically curing a mixture of acrylic, polyester resin, fillers, colour pigments and acrylic pellets, which are then cut into sheets. Solid Surface is workable like hardwood, but can also be heated and thermoformed to curve and mould into desirable shapes.

Solid surface vs. natural & reconstituted stone

Stone has become a popular material for kitchen surfaces due to its luxurious look and feel. However, stone is not without its downsides; it's important to recognise the inherent dangers associated with exposure to silica-dust and the risk faced by craftspeople when working with stone.

ForestOne recommends MEGANITE brand Acrylic Solid Surface for a safe, cost effective alternative to stone, with unlimited design potential and none of the risk to fabricators.

MEGANITE Basins & ANTEGRA Sinks

To compliment Solid Surface interiors, MEGANITE has designed a series of beautifully crafted basins. Available in different sizes, the basins offer designers an effortless means of crafting around set spatial plans, enhancing the design of rooms both large and small. All MEGANITE basins are available in a crisp Snow White décor.

ANTEGRA brand undermount sinks are also available to enhance design, and combine perfectly with surrounding MEGANITE décor for a seamless, sophisticated look. Choose from a range of Stainless Steel, Copper, Gun Metal and Gold Brass. ANTEGRA sinks are supported by a 75-year manufacturer's warranty.

MEGANITE Acrylic Solid Surface

Features, benefits & facts

Performance

Non-porous Acrylic Solid Surface is impervious to liquids, stains and germs, making it easy to clean and maintain. Furthermore, being non-porous, no sealing or refinishing is required when working with the material. Solid Surface is dimensionally stable and scratch-resistant, making it a highly durable décor.

Premium aesthetics

Choose from a wide range of décors and textures that mimic the look of stone, for a high-end solution to match any aesthetic. An important advantage of MEGANITE Solid Surface is its colour stability, with pigmentation that runs all the way through the material; this characteristic helps reduce any imperfections that could arise from use over time.

Design flexibility

A key feature of Solid Surface is its unique ability to be thermoformed. Thermoforming is a technique by which the material is heated to a softening point and made flexible for moulding and shaping.

Seamless & hygienic

Solid Surface joins are seamless and almost invisible, making it the ideal material for large sections of benchtop. Solid Surface sinks can also be joined into the benchtop without gaps for water to collect; this helps eliminate bacteria and promote good hygiene.

Silica-free & safe for craftspeople

Acrylic Solid Surface is made from a composition of natural minerals and pure acrylic, which is 100% silica-free. There is no risk of silica exposure when working with MEGANITE Solid Surface, which helps protect those working with the material.

MEGANITE

Acrylic Solid Surface

For Designers

Silica-free, food-safe & 100% non-porous alternative to stone

Design advantages

- ✓ Made from non-porous materials that mimics the appearance of natural stone (Movement series)
- ✓ Wide range of colours, textures & patterns to enhance design aesthetics
- ✓ Seamless joins – ideal for large or long sections of benchtops
- ✓ Thermoformable (heated to curve & mould into shapes) offering greater design flexibility & freedom
- ✓ Horizontal & vertical applications
- ✓ Group 1 Fire rated for wall lining applications

Product applications

- Kitchen
- Sinks / basins
- Bathtubs
- Benchtops
- Splashbacks
- Wall claddings
- Showers
- Healthcare (Acrymed)
- Education

Sustainability & lifestyle benefits

- 🛡️ Stain resistant
- 🦠 Advanced anti-microbial in Acrymed range integrated throughout the entire sheet (ISO 22196 / JIS Z 2801 certified)
- 🔧 Easy to repair if damaged
- 🚫 100% silica free – peace of mind when processing acrylic solid surfaces
- 🍏 NSF-51 Certified Food Safe
- 🌿 GreenGuard & GreenGuard Gold Certification for Indoor Air Quality

MEGANITE

Acrylic Solid Surface

For Trades

Safely cut & fabricate on-site without the risk of exposure to silica dust

Dual Baby Change in Snow White 033A

Download plans via the QR code:

Commercial benefits

- ✓ Cost effective alternative to natural stone & other solid surface leading brands
- ✓ No sealing required
- ✓ Group 1 Fire rated for commercial applications (wall linings)

Fabrication advantages

- ⚙️ Easy to repair & refresh
- ⚙️ Innovative installations - solid surface sinks can be joined with no gaps
- ⚙️ No risk to silica exposure when cutting sheets

Range & supply options

- High-speed delivery nationwide
- Available in 45 stylish décors

 - 3660 x 1220 x 12mm
 - 3660 x 760 x 20mm

MEGANITE Accessories

Basins by MEGANITE

Enhance & accent your designs with matching acrylic basins

Design advantages	
	Non-porous & hygienic material
	Wide variety of shapes & sizes to suit any application - 7 undermount & 3 topmount basins within the range
	Integrated installation available with MEGANITE benchtop material
	Available in same material as MEGANITE benchtop for consistency

Sustainability & lifestyle benefits	
	Non-porous materials – no liquid & germs can penetrate the surface
	Easy to clean & hygienic
	Scratch & stain resistance
	100% silica free – peace of mind when processing acrylic solid surfaces

Commercial benefits	
	Cost effective alternative to other solid surface basins available in Australia
	Comes with pop-up wastes & kits complying with Australian Standard
	Ready & available stock in Snow White (other colour range / sizes also available with MOQ & lead times applied)

Fabrication advantages	
	Comes as a complete kit to simplify installation process
	All basins supplied with full accessory kits & pop-up chrome Lira Universal Waste
	Undermount basins come with overflow kits / inbuilt system

MEGANITE Accessories

Undermount sinks by ANTEGRA

Complement your MEGANITE décor with a beautiful, fully integrated sink

Design advantages

- ✓ Uniquely designed to feature a lower ledge for customisable walls of the sink
- ✓ Matching MEGANITE décor on benchtop to clad the walls of the sink
- ✓ 16mm ledge allows an effortless flow down to sink from MEGANITE benchtop
- ✓ Comes with a matching 90mm Basket Strainer waste in compliance with Australian Standard
- ✓ Available in different sizes & colours in Stainless Steel / Copper / Gun Metal / Gold Brass

Commercial benefits

- ✓ Built to last – 75-year manufacturers defect warranty

Sustainability & lifestyle benefits

- ✦ Maintenance-free, easy to clean & durable
- [304] All sinks are made of 304 Hospital Grade stainless steel (walls & base)
- ✦ Insusound® protective coating to insulate & maintain water temperature while also reducing noise when in use

Fabrication advantages

- [16mm] Made with a lip & 16mm ledge around the perimeter for easy installations
- ⌒ Top lip allows more adhesive area for extra strength & durability
